

CLUB PHILOSOPHY

Blackhills FC is a child centered soccer club that focuses on developing individual skillful, tactically intelligent and competitive soccer players within a team environment.

A player's individual qualities are a function of the team and how we play the game is a greater priority than winning the game.

Our model of game is based on ball retention and recovering the ball as soon as possible to create scoring opportunities.

We want our athletes to strive for excellence in the classroom, attain their highest level of play and be respectful citizens and outstanding role models that exemplify sportsmanship.
