

BLACKHILLS FC JERSEY NUMBER POLICY

Players can choose any number between 2-37. Number 1 will be reserved for goalkeeper jerseys on all teams. To accommodate goalkeepers also playing on the field, every player will be assigned a jersey number between 2-37.

When there are multiple teams at one age group and gender, no two players on any of those teams can have the same number. This will facilitate moving players between teams and avoiding jersey number conflicts. First teams (Black) and second teams (Red) need to coordinate on jersey numbers 2-37. If a third team (White) is formed, those players must choose jersey numbers between 38-56.

Returning players to a team have first choice on numbers, with priority going to players who have been with the club the longest, unless they are a play up player, then the play up player must choose a new jersey number.

For players new to the club, priority selection goes to Black Team players.
